

# Granol'therm PZG

Armored fabric base rendering

## Field of Application

Reinforcement multilayer for plaster- / facade thermal insulation system

## Composition

glass fibre fabric made of powerfil®/ E-glass with special equipment for high tear and tensile strength and alkali resistance; mesh fabric is resistance to decay

## Colours

Individual coloured, with costumer specific printing deliverable

## Technical data

Fabric type	fabric in turners fixation
Grammage (untreated)	460 ± 10 g/m <sup>2</sup>
Grammage (impregnated)	540 ± 25 g/m <sup>2</sup>
Strength (delivery condition)	
warp	3000 N/5cm
weft	7500 N/5cm
mesh size	6 x 3 mm
fabric breadth	1000 mm
roll length	25 m

## Packaging

750 m<sup>2</sup>/ palet

## Remarks

Store dry and upright
